

Pensacola Community Redevelopment Agency

CRA Sidewalk and ADA Accessibility Street Revitalization Projects

A Street, DeVilliers Street, Reus Street

Agenda

Public Meeting March 19, 2019

1. Introductions
2. CRA Project Goals
3. Why were these streets chosen?
4. Scope of work for revitalization
5. Digital tour of DeVilliers Street and A Street
6. What are the issues, constraints, and opportunities for revitalization?
 - Limitations within the right-of-way
 - Cost limitations
 - Utility conflicts
 - Driveway access and
 - ADA universal access
 - Parking
 - Transit access
7. Multi-modal approaches to use
8. Previous and current public comment
9. Schedule

Question: What can be done for these corridors to revitalize,
And celebrate the history of the place?

Answer: Let's take a look.

Bas Relief Plaque. Size is 20" W x 16"H. The bas relief sculpture is 11".

DescriptionDetailsGraphics

Our Bas-Relief bronze plaque is custom made for you. A clay model is made from the photograph that you provide. Using the finest bronze, this plaque is cast in our foundry with close attention to detail. The finished product is absolutely beautiful!

- * High quality bronze
- * A bas relief is a sculptured image that projects slightly from the background
- * Three dimensional image
- * Raised text and raised border
- * A professional artist creates the image out of clay
- * A photo of the clay model is emailed to you for approval
- * Free proof with two free revisions. Extra charge may apply for additional proofs.
- * No setup fees
- * No charge per character
- * Several mounting options
- * Several border styles available
- * Several font styles available
- * Placement: Outdoors and Indoors
- * Lifetime guarantee (except for plaques placed in the ground or walked on)

BAS-RELIEF PORTRAIT

We start with a photograph. Although we can use almost any quality photograph, the better the image, the better the modeling effort. Remember, the finished image will be an artist's interpretation of this photograph. An image of the clay model is sent to you via email for your comments or approval. When

Prev

Flat Relief Plaque 10"L x 8"H (minimum size). Sand texture background.

Description

Details

Our Flat Relief bronze plaque is an alternative to the bas-relief plaque. The flat relief plaques are two-dimensional images that are part of a plaque. This is a two-dimensional precision tooled plaque that is an alternative to the expense and time turnaround of a bas-relief. The lettering (and image) are raised off the surface of the plaque. There are no high/low areas such as those on a bas-relief.

FEATURES

- * High quality bronze
- * Provide high quality photo or illustration
- * Minimum plaque size is 8"H x 10" L.
- * Lettering (and image) are raised off the surface of the plaque.
- * The relief highlights are brushed bronze to match the letters.
- * The relief's shadows match the background of the plaque.
- * Final portrait will be 6" H minimum. Height depends upon height of the plaque.
- * Free proof with two free revisions. Extra charge may apply for additional proofs.
- * No setup fees
- * No charge per character
- * Several mounting options

Walks of Fame

Walk of Fame plaques are bronze commemorative inset plaques that honor individuals, achievements and events.

[REQUEST A QUOTE](#)

CELEBRATING INDIVIDUALS & EVENTS WITH A WALK OF FAME

A walk of fame is a series of plaques that celebrates the unique achievements of individuals who share a common history. Each plaque in the series has the same or similar design (such as a star-shaped plaque) and features the name of an honored individual. Walk of Fame tribute plaques can also celebrate historic events, stories, native wildlife, etc. and can range from simple text plaques to exquisitely illustrated works of art. Walks of fame star walks are commonly used to lead visitors through a public space and often promote tourism and create a unique opportunity to foster local identity. Need some inspiration? Check out these [Walks of Fame You May Not Know](#) in our blog.

A WARM WELCOME

Seeley's Bay Tourism

A CHARMING DESTINATION ON THE RIDEAU WATERWAY

Seeley's Bay is a lively community that has been accommodating visitors for over 150 years and continues to do so today. The Rideau Canal has always attracted tourists with its natural flora, fauna and good fishing.

Seeley's Bay is one of a handful of spots in Eastern Canada where you can fish for muskie, also known as "The Devil". The muskie of the Rideau River lives in the famous muskie nursery, about a million years ago.

The 1920s saw a boom in tourism to the Rideau. Locals were happy to see the influx of visitors and the local economy.

A local business owner, who was also a member of the local community, was one of the first to see the potential of the Rideau. He was a Canadian who had lived in the United States and had seen the potential of the Rideau as a tourist destination.

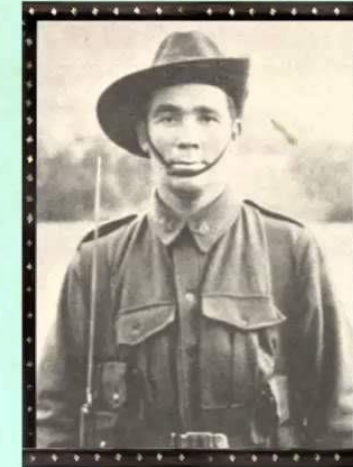

When the small local hotels could not accommodate the growing number of visitors, the village developed several tourist homes that offered a comfortable bed and a home-cooked meal.

Studio portrait of 628 Private (Pte) Allan Goss, 40th Infantry Battalion. A labourer from Cressy, Tasmania, prior to enlisting, Pte Goss embarked from Hobart on 1 July 1916 aboard HMAT Berrima A35. He was wounded in action in Belgium on 6 October 1917 and died of his wounds two days later.

Private James Henry Griffiths Snr, Camp Staff - Home Service. Born 1862 at Connorville. Occupation prior to enlistment - Miner. Enlisted 3 December 1915 at Ross. Discharged 10 December 1918.

Private John Douglas Deacon - 15th Battalion. Born at Cressy, son of Thomas and Edith Deacon. Died of wounds 15 September 1915, King George's Hospital, Stamford. Buried Kensal Green Saint Mary's Roman Catholic Cemetery, UK.

Raine Cemetery and Monument

The Raine Cemetery is a historic site in the heart of the city. It is the final resting place of many of the city's early residents, including the Raine family. The Raine family was one of the most prominent families in the city, and their graves are a testament to their legacy.

The Town of Florida: Birthplace of Mark Twain

Florida, Mo., a settlement of about 60 families and several businesses. "...had two streets, each a couple of hundred yards long; the rest of the avenues mere lanes, with rail fences and cornfields on either side. Both the streets and lanes were paved with the same material—tough black mud in wet times, deep dust in dry."

Florida reached its zenith before the Civil War. During this period, one of the general stores was briefly owned by John Marshall Clemens, Mark Twain's father. Florida was destined to remain small. The Salt River was never navigable for steamboats. Railroad companies were not interested in building a line to the tiny village. The community was relatively isolated from large towns.

FLORIDA

Map of Florida from an 1876 Atlas.

The Clemens family, consisting of John Marshall and his wife Jane, their children Orion, Pamela, Margaret, Benjamin and a slave girl named Jenny, arrived in the small village of Florida, Mo., late in June 1835. They had made the long trip by riverboat and wagon all the way from Pall Mall, Tenn., at the urging of Jane's brother-in-law, John Charles Quarles. After arriving in Florida, John Clemens rented the two-room frame house where Samuel Langhorne Clemens was born (two months premature) in November.

Buried in the Florida Cemetery are Mark Twain's sister, Margaret, his uncle, John Quarles, his aunt, Patsy as well as Dr. Thomas Chowning, the man that delivered young Sam. His grandfather, Benjamin Lampton, is buried behind the one-room schoolhouse in town.

The Clemens' house from an early photograph.

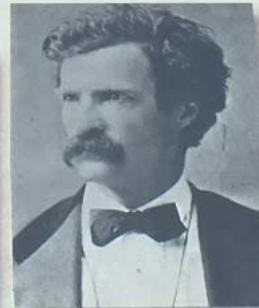

Mark Twain noted in his *Autobiography*, "Recently someone in Missouri has sent me a picture of the house I was born in. Heretofore I have always stated that it was a palace, but I shall be more guarded now."

A photograph of the memorial and bust in its original location.

14 year-old Sam Clemens in 1850.

Sam Clemens around 1870-1873.

Sam Clemens in 1901.

This memorial with a bust of Mark Twain was erected in 1914 with Legislative authority to commemorate Florida, Mo. as the birth town of one of America's most famous authors. Originally located at the intersection of Main and Mill Streets, Florida's main thoroughfares, the marker consisted of a concrete platform (visible 1/2 block north), the granite monument and a bronze bust of Mark Twain.

The memorial adorned Florida's main streets for 50 years. In 1964, concern for its preservation resulted in the removal of the bust to the safety of the nearby museum, which also displays the Clemens' house. Two years later, the granite monument, without the bust, was relocated to the actual site of Mark Twain's birthplace.

The cabin in which Samuel Clemens was born can be seen at the Mark Twain Birthplace State Historic Site.
